

Wednesday, August 11th

Loafer View Complex
600 East Salem Canal Road, Salem

FREE

Salem City along with: Dr. Adam Lee, Dr. Kenneth Palmer, Dr. David Hansen, and Dr. Brett Sorensen are excited to announce this year's movie...

As we rejoin the motley herd from the two previous Ice Age films, Manny the mammoth nervously pampers his expectant mate, Ellie, while his best friend, Diego the saber-toothed tiger, bristles at the thought of Manny's domesticated existence. Meanwhile, Sid the sloth continues to annoy everybody, and Scratt the rock rat is still trying to get that acorn. When Sid accidentally discovers an underground world populated by dinosaurs, he steals three dino eggs so that he, too, can become a "mommy." After the little ones hatch, their real mom comes to retrieve them, and snatches Sid as well, prompting the others to band together yet in order to rescue their friend. -

Bring your blankets, pillows, lawn chairs, bug repellent and don't forget your treats. It is sure to be a crowd pleaser!
